

# Hodiri Tribes 1

## Hodiri Tribal List

There are 82 Hodiri tribes, with between 60 and 300 male members per tribe (120 - 600 people all told). These tribes have roughly the following distribution (in terms of size):

- the largest tribes, with around 600 persons - 5 tribes; the Kitu-hodiri.
- tribes with around 480 persons - 11 tribes; the Uge-hodiri.
- tribes with around 360 persons - 24 tribes; the Jagunsagrai-hodiri.
- tribes with around 240 persons - 27 tribes; also considered Jagunsagrai-hodiri.
- tribes with around 120 persons - 15 tribes; the Katchi-hodiri.

The Hodiri range covers nearly 90 hexes, or over 12,000 sq. miles. Each tribe has both a summer (northern) and winter (southern) range, with migrations in spring & autumn. There are a total of 25,204 Hodiri tribesmen and women.

Jherdela's confederation of three tribes (the Kituguri, Qaraeni, and Boratan) have their summer range in the fertile lands of hexes 42 & 43, and their winter range on the coast in hexes 80, 89 & 90. Their fierce rivals, the Urtiguri, have their summer range in hex 32, and winter just north of Patrel in hex 66.

The Dugeai horseclan (summer range hex 2) engage in annual trade with the Chybisans, trading horses for a variety of goods, particularly steel weapons. Their rivals in this trade are the Temuhi, who have an arrangement with the Miners' Guild who operate an iron mine in their summer range (hex 7).

Jherdela's Confederation			Pop.	Ranges	
				Summer	Winter
1	Kituguri	Great-gur	556	42	80
2	Qaraeni	Black-dogs	356	43	89
3	Boratan	Grey-fox	386	43	90
